IV. When in Doubt, Call in the Dingoes

PRESIDENT'S MESSAGE 

Does Plan S Serve the IEEE Control Systems Society the Dingo's Breakfast?

Plan S is a drive toward open access (OA) scientific publishing from cOAlition S, a consortium of mostly European funding agencies, but

control of a process without a full enunciation of exactly what that entails: notably, economically in the long term and on an international stage.

years ago. These ventures have been financially successful so far. The IEEE has also developed a coordinated accelerated OA scheme as a contingency
